

Inauguration of

13th
NOV-2021

ADHAR SENIOR PARENTS HOME, NASHIK

Chairman's Desk

Dear Readers,

Happy Festive Season!

I am extremely happy & satisfied to inform you that with almost 100% vaccination (2 doses) has been completed for our Adhar Special Friends including the Staff; we have fought the COVID-19 Pandemic well. At this juncture, I feel positive & confident that we are poised to come out safe & sound from the clutches of this unexpected calamity which affected the whole world during last 18 months.

I wish & hope that, soon things will come back to normalcy!

I always believe that Adhar's Philosophy is "Selfless Giving". It is the Giving of Relief to parents, it is Giving Utmost Care to our Special Ones along with Socialization, and it is Giving Employment & Care to our Staff Members. Adhar is also a platform which gives opportunity to Donors & Well-wishers to support the deprived section of the society.

I feel that the Joy of Selfless Giving is Infectious as well as a great motivator for Doing Good in this World. We have experienced this over for a long period of time and therefore, we have so many individuals & corporate joining hands with Adhar and experiencing the "Joy of Selfless Giving"!

देणा-याने देत जावे, घेणा-याने घेत जावे ॥

चेता चेता एक दिवस, देणा-याचे हात घ्यावेत ॥

- विंदा करंदीकर

Adhar, Badlapur today is 27 years & Adhar, Nashik is 10 years Young. I have led this amazing institution for last 20 years and have witnessed its transformation & growth.

At this juncture, I have decided to take a back seat slowly but surely. I have decided to handover the baton in the hands of our younger Trustees, and our new CEO Mr. Avadhoot Sahasrabudhe. I am confident that Adhar will cross many more important milestones and achieve glory under their leadership. I am always here to support them all the time and sincerely request all of you to extend them maximum cooperation & support for the benefit of our ADHAR!

Thanks & Regards,

- Vishwas Gore
Chairman

Editorial

Dear Readers,

As we move towards a semblance of normalcy, it is heartening and energizing to see Adhar continue its march towards self sufficiency. Adhar continues to move towards providing excellent service for its residents and their parents. The preceding quarter has seen a series of infrastructure improvements which should make Adhar cut down its deficit and move towards its goal of zero deficit. The solar power

project is a big step in that direction. It will help us cut down on our energy costs and reduce our monthly expenses. The work on the Adhar Old age Home is another feather in the cap for Adhar. It completes the Circle of Care for the specially abled children and their parents. It is also the first instance wherein the parents of specially abled children are being offered special care facilities. The noble objective behind the project is to offer a comfortable, safe, and a well looked retired, active and a carefree life to the parents of the specially abled in their twilight years.

This year we saw the world move towards the adoption of digital technologies in a very big way. Adhar wasn't behind. We have successfully commissioned digital learning classrooms in both our facilities and have used them optimally. Children can now connect with their parents and guard-

ians over Zoom calls and celebrate their special days. The enthusiasm among the residents towards the new gadgets is amazing and they seem so eager to start using them. We have also started the process of developing a digital backbone for Adhar which will help digitize all the records and provide rich analytics.

As things normalize, we must gear up our efforts for generating more donations and support from the society. We will need to re-double our efforts as we have seen a year of low donations because of COVID. Though the near-term challenges seem large, I am sure that together we will easily overcome these and continue to make Adhar the best institution for the specially abled.

- Arun Wadhwa
Editor

ADHAR'S SECOND INNINGS

Senior Parents' Home - Nashik

ADHAR started operating its first lifelong care unit for Intellectually Challenged Adults at Badlapur, 27 years back and currently takes care of 340 such specially abled children at Badlapur & Nashik (which was started 9 years back). Adhar has been a role model for such type of lifetime care residential institutes across India and is duly recognized by Government as well as other eminent organizations.

The fundamental concept behind Adhar was to provide a lifetime relief to parents of such Special Children by addressing their basic need of "Who will look after my special child after me?"

In last 27 years, Adhar has provided relief to more than 1000 parents of Special Children by providing comprehensive and holistic lifetime care to the specially abled and is continuing its work relentlessly. In this period of 27 years, the young children have grown old and are now about 50+ years of age. Their parents also in the meantime have grown older and would be around 70-75+ years old. They would have retired from their jobs and their means of income would be limited. They would be facing challenges to their health due to old age. Parents who have a single child and that too a specially abled one do not have any other support mechanism to take care of themselves in the twilight years of their lives. Parents who have faced immense hardships and challenges while bringing up their specially abled child now face an existential challenge while taking care of themselves. This poses a unique challenge to the institution and hence Adhar has come up with a Visionary Concept of starting a Senior Parents' Home for such aging parents.

By doing so, Adhar has taken its cause to a next level wherein it not only provides relief of the parents by taking lifelong care of the specially abled children, but also plans to take care of the parents through an institutionalised old age care facility for the parents. This is going to have a major positive impact on the lives of these dependent parents by providing a

symbiotic facility where both the child and the parent/s are taken care for lifetime.

Adhar has put in a lot of careful thought and planning while designing the new Senior Parents Home at Nashik and is striving hard to provide comprehensive care services with an excellent infrastructure. Minute details regarding comfort, entertainment and providing a fulfilling life have been taken care of.

We intend to provide the below facilities at 'Home of senior Parents of specially abled children' -

- There will be 20 rooms in the complex (Twin Sharing Basis).
- It is located near Nashik city which provides good access to all daily necessities.
- Basic facilities like hygienic food, laundry, self-sufficient residential facility, telephone & internet access, CCTV Security, recreational facilities like TV & Music, Newspapers, Garden, etc. have been provided
- Care for their physical health with proper medical facilities.
- To help them keep engaged and prevent loneliness, depression is made possible with the support of active & caring staff who will engage them in various activities like picnics, library, and also organize motivational talks on different topics, meditation, yoga classes etc.

In addition to the above facilities, we will also

- Support them to complete their personal chores like buying their essential things, banking etc. and also by providing transportation to nearest city of Nashik for personal work.
- Any other need-based requirement on case-to-case basis will be provided to make living comfortable.

Who can benefit from this Senior Parents Home at Nashik?

1. Parents of specially abled children residing at Adhar - **First Preference**
2. Parents of specially abled children who may not be residing at Adhar - **Second Preference**
3. Senior Parents of General Category not necessarily having a special child - **10% of capacity**

We are planning to Inaugurate the Senior Parents' Home on Saturday 13th November 2021 at Nashik. People interested in knowing more about the project can contact the undersigned at:

1. **Mrs. Sharayu Samarth** - EA to The Chairman - 9987322050
2. **Mr. Sandesh Sawant** - Adhar Nashik Unit Head - 7447476047

Yours Sincerely,

ForADHAR

Avadhoot Sahasrabudhe

Chief Executive Officer

9987521658

avadhoot_ceo@adhar.org

ADHAR'S Holistic Concept behind Sr. Parents' Home

Parents of the specially abled children who were admitted 20+ years ago are now old, financially weak with diminishing physical abilities. They themselves need special care and support.

Their specially abled child is being looked after by Adhar and they have no one else to look forward to in their twilight years

Adhar wants to complete the circle of care by not only providing lifelong care for the specially abled children, but also providing institutionalized care to their elderly parents in their twilight years.

Adhar has a unique advantage in setting up such an institution as it can leverage on its expertise of providing lifelong, 24x7 care to the specially abled children for over 27 years

New Cattle Shed at Badlapur

ADHAR, Badlapur has been having in-house cattle shed for the past 16 years and it has immensely helped in providing captive milk supply to our residents. The benefit is not only in terms of cost but also in terms of quality of milk given to the residents. Additionally, it gives important by-products like Curd, Butter Milk, Ghee, etc. which is of very good quality. This ensures that our special ones get purest milk and milk products for consumption all the time. On an average, the cattle shed supplies 60 Liters of milk per day and thus fulfills almost 80% of our requirements on an annual basis. We also get some additional revenue from sale of the new born male buffalos & calves to other farmers in surrounding villages. The existing cattle shed was built 16-17 years back and has limited capacity in terms of providing shelter to the cattle. Over the years, its

structure started requiring frequent maintenance and refurbishments adding to Adhar's expenses every year since the past 2 years. Hence, it was felt that a New Cattle Shed needs to be constructed which would be of larger area to accommodate more cattle and also provide better facilities to them & the care takers of the shed.

A well wisher and donor agreed to fund for the construction of New Cattle Shed by donating the required amount and

thus we have now a New Shed constructed and made operational. It was inaugurated on 30th July 2021 at the hands of our Senior Trustees & Vice Chairman Mr. Talwar & Mrs. Talwar along with Trustee Mrs. Saraswathy.

One more advantage of building these new cattle shed is the space created by clearing of the old shed which can now be developed into a garden with walking track & sitting area which will be enjoyed by our residents soon in future.

Material Donation from DonateKart

ADHAR recently engaged with a crowd funding platform called 'DonateKart' which helps NGOs and other social organization to raise daily consumption material through donation by crowd funding. DonateKart was greatly impressed with Adhar's work in the area of providing Lifetime Care of Intellectually Challenged Adults.

This crowd funding organization helped us to create a campaign by sending a professional cameraman to create a very touching and realistic video about how we take care of our special ones and how people can help us by donating material required for our daily consumption like grocery,

hygiene & sanitary material. Antiseptics & disinfectants, bathroom & floor cleaners, handwash & soaps, toothpaste & mosquito repellents, etc. These were also donated by the general public through their web portal. They also helped us get bedsheets, pillow covers, towels and Solapuri Chaddars through this campaign. Adhar could raise donation of the above items worth 50 Lakhs+ through this campaign and it has been a great support towards bridging our deficit gap in operating expenses.

This has been a great learning experience and we will continue to explore this option in future.

Solar Power Plant at Badlapur

ADHAR's Badlapur unit needs a huge amount of electricity for its 4 dormitories, 1 special care unit, administration office, vocational workshop, water pumps, laundry unit and for campus lighting. The monthly electricity charges incurred per month amount to more than 1 lakh and is one of the major constituents of Adhar's monthly expenditure cost. Additionally, due to frequent electricity outages from MSEDCL, our diesel-based generator runs for many hours in a day thus adding to fuel and maintenance cost.

We have been planning to commission a Solar Powered Electricity Generation Plant for quite some time but due to high capital cost, the project could not take off in the past. We tried alternative means like wind energy but it was not efficient as well as sufficient for our need. We could only use solar power for heating water in the dormitory bathrooms effectively and hence there was limited impact on cost savings.

We recently approached H. T. Parekh Foundation (which is our regular donor for last 2-3 years) through our trustee Mr. Ajay Mehta and requested to consider supporting a proposal for a Solar Power Plant which would be sufficient for the entire Adhar, Badlapur campus.

They were very considerate and agreed to sponsor a 40 kW Solar Power Plant for Adhar, Badlapur. H. T. Parekh Foundation has tied up with Centre for Environmental Research & Education (C.E.R.E.) as an implementation partner for helping NGOs to use renewable & environmentally friendly energy sources for fulfilling their electricity needs. CER E specializes in implementing various projects in the

areas of Solar Power, Urban Afforestation, Carbon Mapping, Rainwater Harvesting & Biodiversity Gardens in both urban and rural areas.

For implementing Solar Power Plants, CER E has tied up with Avesta Solar, an organization specializing in installation & commissioning of Solar Power Plants in India using the latest Swiss & German Inverter Technology which gives maximum efficiency, long life, and trouble-free operation.

We had to construct a separate room behind our existing multi-purpose hall for installing the Solar Panels and for housing the batteries & inverters required for this plant. A well-wisher & donor helped us by donating the required amount for the same.

The 40 KW plant has 2 sets of Panels – one installed on the newly made battery room and other on Dormitory No.4. This Solar Power Plant can generate sufficient power to meet the entire electricity requirement of Adhar, Badlapur campus in case of stoppage of supply from MSEDCL. The batteries get charged regularly from the power generated from panels. The set-up includes a state-of-the-art control and automatic switchover system. The commissioned plant is currently undergoing various tests and tweaking of settings to get maximum benefit in the long run, thus saving the cost of electricity for Adhar, Badlapur.

The Solar Power Plant was inaugurated by Senior Trustee Mr. Chandavarkar & Trustee Mrs. Saraswathy on 30th July 2021 in presence of representatives from all the agencies involved like – Mr. Burgis from Avesta Solar, Mrs. Sonal Alvares from H. T. Parekh Foundation & Mrs. Shabnam Sikandar from CER E.

Founders' Day at Badlapur

Founders' Day was Celebrated at Badlapur on 4th October 2021 to mark the 22nd Death Anniversary of our Founder Chairman Late Shri. M. G. Gore.

The entire staff of Adhar, Badlapur was eagerly waiting for this day and they had planned a musical program consisting of

devotional songs. All the Staff, Trustees and some of the Residents paid tribute to our Founder by offering flowers at the statue of Shri M. G. Gore in the campus.

The musical program was entertaining and all staff members enjoyed the nice rendering of 'Abhang' by the perfor-

ming group. The day's Special Lunch was sponsored by our Chairman Mr. Vishwas Gore in Memory of his Father. Our New CEO Mr. Avadhoot Sahasrabudhe also inaugurated the new toy library at Vocational Center which is very good addition to the facilities there.

Toy Library Inauguration

Mr. Avadhoot Sahastrabuddhe, CEO, Adhar inaugurated the Toy Library project at Adhar Badlapur Campus. Due to the COVID-19 lockdowns, we had to restrict the movement of the residents to the Dormitory area only. We realized that, residents were getting bored being in the dormitory all the time. After the relaxation of COVID-19 restrictions, we started the Workshop activity at 50% of the actual capacity.

However, rest of the residents those who are severely retarded were still restricted in the Dormitories only. Hence, psychologist Mrs. Rupal Ajmera come up with the concept of Toy Library where all Social workers can utilise the toys among their dormitory to make their residents busy in some activity.

Social workers and Workshop Teachers are coordinating well

to make the residents busy and keep them occupied. We are planning to expand this library for the overall development of severely challenged children.

Sewage Treatment Plant at Nashik

Adhar Nashik is situated at a very beautiful location overseeing 'Kadva' Dam and Sahyadri mountain ranges in view. The location has pleasant climate throughout the year and our special ones at Nashik enjoy these surroundings through exertions & outings many times.

However, the land on which the Nashik unit is built is made of hard rocks and it is at a slightly elevated level than the surrounding area. All our attempts to dig bore wells for ensuring constant water

Sewage Water Recycling Plant at Adhar, Nashik with the help of an expert organization. M/s. Ultratech Water Recycling Solutions, has more than 35 years of experience in this field and they have done many projects which are successful in achieving up to 75% of water recycling. They were also found to be very cost effective in terms of capital expenditure and operating expenses.

The installation & commissioning of this Sewage Treatment Plant at Adhar,

Nashik was completed in July 2021 and the plant is under testing currently.

We plan to recycle sewage water from bathrooms & dormitories as well as from the laundry unit which can then be re-used for cleaning of common areas of dormitories and also for our gardening purpose. This will considerably reduce the fresh water requirement of the unit and will also help to develop & maintain green and clean surroundings throughout the year.

supply have not yielded any positive results. Adhar Nashik has to depend on 2 sources of water outside Adhar for its daily requirement of almost 40,000 liters of water. During the summer months of April-to-June, these external water sources also dry up and many times we have to depend on water tankers.

Water is a very precious natural resource and every opportunity to conserve water is like generating new water and Adhar Nashik uses this resource very judiciously. However, the requirement of water to maintain hygiene & cleanliness of our special ones is large and hence we were planning to use means to at least conserve & recycle water efficiently.

After survey of various options and alternatives, we decided to install a

Parents Meeting at Nashik

Adhar had a Parents' Meet at Nashik on 2nd October 2021 after a gap of 2 years due to the pandemic. Almost 45 parents attended the meeting along with the trustees. They also visited the proposed Senior Parents' Home coming up on the adjacent plot and appreciated the work done there. It was the first glimpse of facilities planned at this Senior Parents' Home to them.

It was announced that the inauguration of this facility will happen on Saturday 13th November, 2021 and ADHAR has started registration of interested parents for admission.

The Parents' meeting was an emotional one where many parents expressed

their appreciation & gratitude towards the Adhar Nashik Staff for taking utmost care of their special ones during the difficult times of 18 months of Pandemic and thanked them from bottom of their heart. They also appreciated the efforts taken by Adhar management for complete vaccination of residents as well as staff.

New Parents like Mr. Suresh Kalkar, Mrs. Seema Tiwari, Mr. Kishore Chaoudhary, Mr. Sandeep Rewankar, Mr. Anand Manwat & Mr. Shayam Jadhav spoke about their experiences about Adhar and its staff while helping their child to assimilate and also about their satisfying experience about the care taken.

ADHAR @ TMM from 2019 - 2021

The TATA MUMBAI MARATHON (TMM) is an excellent platform for raising awareness about NGO's & our Adhar has successfully participated in TMM 2019 & TMM 2020 & now excitedly looking forward to TMM 2021.

However, the COVID-19 Pandemic has impacted one & all across the globe which has not spared one of the world's Best Marathon event line Tata Mumbai Marathon. There is as yet no certainty as to when the TMM 2021 will be held & how it will be held.

Adhar benefitted immensely by participating in Tata Mumbai Marathon - which is among the Top Running Events in the world. Adhar too has been

impacted by the COVID-19 Pandemic. As major charitable funds got diverted towards the COVID-19 Pandemic Relief, Adhar received less donations compared to earlier years. Adhar had to incur additional costs to continue running the institution in the very tough times of lockdown all through 2020 - May 2021.

As Adhar provides a lifelong home for the Specially Abled children, Adhar honoured its promise by not shutting down even for one minute during these tough times.

In such trying times, Adhar is thankful to the TATA MUMBAI MARATHON's Philanthropy Platform which helped Adhar generate Rs. 15.55 Lakhs donation thru TMM 2021 Pledge pages. This is quite noteworthy, especially looking at the challenges that the NGO's are currently facing. Getting more corporates to support Adhar @ Mumbai Marathon will be great help for our Adhar.

Helping Adhar thru TMM Fun-draising Pledge Page Support :

Appealing all Parents & Supporters of our Adhar to help our Adhar by creating your own Fundraising Pledge Page during Tata Mumbai Marathon every year. It's very simple, we will help you create your Pledge Page. You need not be a Runner, you can sit at home & help Adhar by spreading your Pledge Page amongst your Social & Family Circles. It's online & very simple way of donation.

All through TMM2019 (Donations Rs. 16.29 Lakhs), TMM2020 (Donations Rs. 33.32 Lakhs) & TMM2021 (Donations Rs. 15.55 Lakhs so far), our Adhar has immensely benefitted from our supporter's pledge pages. The Donor will get Adhar's Donation Receipt as well.

GOD bless our Adhar always.

Best regards,

- Ajay H Mehta.
(Trustee, ADHAR)

Virtual Meeting for 15th August

We all are used to coming to Adhar Badlapur and celebrating the Indian Independence Day at the campus with our specially abled children. This year was different due to the ongoing COVID-19 lockdown restrictions. But even COVID could not curb the enthusiasm of Adhar.

We came up with an innovative virtual platform for conducting Adhar's parents meeting on the 15th of August 2021. The platform not only gave the parents a glimpse of the changes and improvements being undertaken at Adhar Badlapur, Nashik and the Parents Old Age Home but also gave glimpses of happy residents at Badlapur and Nashik. All were beautifully captured in videos which incorporated drone shooting and crisp editing. The Flag hoisting ceremony of 2019 was replayed to give the same experience to the parents and the dance performances of the children were carefully and lovingly packaged snippets of their earlier performances. On the day, at the same time, on the virtual platform, everything felt real. The same excitement, the joy on the children's faces the wonder at the scale and achievements of Adhar was all there and felt real. The Chairman's speech was another highlight delivered in his characteristic style, flair, and enthusiasm.

The virtual platform also gave the opportunity to people to see how Adhar has progressed in the years when they could not physically visit Adhar due to COVID restrictions. Going ahead it can provide ready access to information about Adhar in video format which people can use to pitch for donations. The recording of the entire event has been archived and uploaded on the same link. So in case you haven't watched it till now, it's not too late. Watch it and share your feedback. As always, Adhar continues its march towards normalcy while making sure it is always in tune with the latest technology.

ALWAYS ADHAR FIRST.

- Arun Wadhwa (Trustee, ADHAR)

Covid-19 Final Vaccination camp at Adhar Badlapur & Nashik

Dated 29th July, 2021 we have arranged special vaccination camp for these residents with the help of PHC Centre Sonawale, Badlapur (W). Mr. Rajesh Rathod, Mr. Bhansingh Jadhav, Dr. Suyog Sable, Dr. Gaytri Gayal and health workers visited Adhar, Badlapur for vaccination. We successfully vaccinated 34 residents (11 Girls, 23 Boys) of Adhar. This was a big relief as most of them did not possess UID documents. We are thankful to the Team PHC Sonawale to make this camp successful.

We also provided place for the vaccination to the beneficiaries from NGO, Sonavale Badlapur namely Bombay Teen Challenge. Total 25 orphan Boys and girls were vaccinated through this camp.

Vaccination drive on mass level was organized on 23rd September, 2021 for Adhar residents, Staff and for their family members. This camp was in collaboration to SRV Hospital Dombivali. We vaccinated 161 beneficiaries including Adhar Special Children, Care taking Staff and their

family members also. Team of Doctors, nurses and supporting staff conducted this camp professionally. Adhar is always thank full to them for providing such a nice facility. All parents and staff members were thank full to our Trustee Mr. Ajay Mehta, because of him Adhar Badlapur have completed 99.99% for 1st Dose and 99% for 2nd Dose including Residents and Staff. Our special Thanks to the Team Me-Hin who had coordinated this camp very well and to make Badlapur campus fully vaccinated.

Campus Visit of Smt. Pallavi Jagannath Mirajkar

Smt. Pallavi Mirajkar visited Adhar, Badlapur Campus. She was accompanied with her family members during this visit. This visit was to understand how Adhar works and

also to give donation in memory of her late husband on his birthday. Smt. Pallavi Mirajkar sponsored special lunch on that day and donated few clothes for Adhar residents.

Smt. Pallavi Mirajkar visited the dormitory and other facilities observing all COVID-19 precautions and left with happy memories of Adhar.

Visit of Rtn. Mrs. Alpa Shah and Rtn. Mr. Sumit Dutt

Rtn. Mr. Sumit Dutt and Rtn. Mrs. Alpa Shah from Rotary Club of Mumbai Inspire visited Adhar, Badlapur Campus. They visited Adhar, Badlapur to know more about Adhar and the scope of

collaboration for the immediate needs of the Badlapur unit. Mr. Ajay Mehta (Trustee), Smt. C. R. Saraswathi (Trustee) and Mr. Avadhoot Sahastrabudhe (CEO), Adhar accompanied them during

the visit. The visit concluded with the assurance of association with Adhar in terms of new projects with Rotary Club of Mumbai Inspire. they left with happy memories of Adhar, Badlapur.

VIP Visit at Badlapur campus

Mr. Sandeep Ogale – YMS Partners LLP and Mr. Kirat Sawant – ATE Group visited Adhar Badlapur facility. Mr. Avadhoot Sahastrabudhe – CEO, Adhar and Smt. C. R. Saraswathi

accompanied them. Mr. Avadhoot welcomes the guests and explained about Adhar facilities Badlapur, Nashik as well as new project of Old Age Home at Nashik. Mr. Sandeep Ogale

and Mr. Kirat Sawant appreciating the continuous services for the past 26 years. Visit ended with the assurance of future collaboration with their organization.

46th Birthday Celebration of Mr. Shailesh Shirke

46th Birthday of Mr. Shailesh Shirke was celebrated at Adhar Badlapur. Mr. Shirke is Vice-Dist. Chairman for Maharashtra Navnirman Sena (MNS), Ambernath. His birthday was celebrated

very innovatively i.e. he served 46 Cakes for intellectually challenged adults at Adhar, Badlapur. He donated fruits and biscuits as well. The entire programme was sponsored by the local

MNS volunteers from Badlapur and Ambernath region. Adhar is thankful for their whole hearted support to the cause of Lifelong Care for the Specially Abled Children.

Me-Hin Corporate Visit at Badlapur Campus

Mr. Rajesh Unarkat, Me-Hin CFO and his colleague Mr. Amol Acharekar visited Adhar Badlapur with Mr. Ajay Mehta, Trustee Adhar and owner of Me-Hin. Mr. Rajesh spent good time with

Team Adhar. Mr. Rajesh visited the Badlapur campus and had a look at the facilities. He spoke at length with the staff and appreciated their noteworthy efforts. The visit concluded with happy

memories of Adhar and a promise for continuous association with Adhar in future. Adhar is thankful to Me-Hin and Mr. Ajay Mehta for their constant support.

Tech Mahindra Corporate Visit at Badlapur Campus

Mr. Chandrakant Samudre, CSR Mumbai Programmes visited Adhar Badlapur with Mr. Avadhoot Sahastrabudhe, CEO-Adhar. Mr. Chandrakant visited Adhar to explore the future association of Tech

Mahindra and Adhar. He appreciated the dedicated and committed work being done by Adhar in its mission of providing lifelong care to the specially abled children. The visit concluded with happy

memories of Adhar and a promise of future association with Tech Mahindra and Adhar. Adhar is thankful to Tech Mahindra and Mr. Chandrakant Samudre for spending their valuable time at Adhar.

Rotary Club of Mumbai Juhu campus Visit

Under the leadership of Rotary club of Mumbai Juhu, Mr. Ashish Patankar & 17 Rotarians visited the Adhar, Badlapur facility. Smt. C. R. Saraswathi and Mr. Arun Wadhwa (Trustee) Adhar accompanied them during their visit. They visited the campus and interacted

with the caretakers. They put up a dance and music show for the children with professional singers. The residents and the Rotarians had a good time enjoying and dancing to the music. RCMJ donated ₹52k for 2 months of food-grains. In addition to this, rice, wheat, dal, edible

oil, were also donated in kind. A portable speaker and 2 cordless mikes was also donated. Special thanks to Mr. Hemang Jangla, Dist. Secretary 2020-21 of Rotary Club of Mumbai Sea Coast for the grain donations and Rtn. Arun Wadhwa, Adhar Trustee for coordinating this visit.

Naraindas Morbai Budhrani Trust Visit

CSR Visit of Mr. Santosh Dongre, Asst. Programme Manager, Naraindas Morbai Budhrani Trust. This visit was to explore future association with Adhar for providing medication and nutrition

supplies. Mr. Ambekar had a fruitful meeting with Mr. Santosh. He spent a good amount of quality time at Adhar Badlapur. Mr. Santosh assured us that they will discuss this with their Trustees

for future association with Adhar. They are very much interested in supporting the co-parenting and providing medications for Adhar residents. We are thank full to Mr. Santosh and NMBT.

Me-Hin Engineers Visit

Mr. Krishna and Mr. Sagar from Me-Hin visited Adhar, Badlapur. They spent quality time with the caretaking staff and the children.

They were very impressed with the facility. This visit was to provide IT Support to Adhar, Badlapur administration office and staff members.

They checked the computers and resolved the problems being faced by the staff. Thanks to Team Me-Hin.
